

London Song

The Breeders

Victory is a blue and bruising voice
Yeah I'm leaking pure white noise
Slipping through the states to find the static
Yeah there's something to believe

Mercy here gets meaner overnight
It's Jersey sheer, it's outta sight

Slipping through the states to find the static
Yeah there's something to believe
Misery's fun, I'm kissing everyone
I gotta hold my tongue
Slipping through the states to find the static
Yeah there's something to believe

I thought I'd know better
I thought I would know

Slipping through the states to find the static
Yeah there's something to believe [x2]
