

Love

The Brian Jonestown Massacre

Honey if I show you how you're free
Baby I want to open eyes
And let you see all around you
Love it gets around you
I can be you yeah if you want me to
I can split myself in two
surround you on the sides of you
All around you yeah I could surround you
Could you see me? Up in air, high
Show you that you've got two wings
And if you use them don't you know you can fly
All around in the sky up and down inside of love
Love
Honey if I tell you would you keep me to yourself?
Maybe if I make you do it, sure you aren't through it
Once you find out, if help have no doubt how I love
How I love
Love
How I do love you
How I do
