

Nailing Honey To The Bee

The Brian Jonestown Massacre

There's a problem with love
It's stronger than drugs
You take all you want
But it's never enough
Search all your life
Thinking you'd love your wife
Then you cheat and you lie
And expect something more queer
Feels so shitty inside
Sometimes you wish you could die
Now you know love
Now you know love
Feel so awful inside
Sometimes wishing you'd die
Now you know love
Now you know love
Feels so shitty inside
Pray to god you could die
Now you know love
Now you know love
