

Satellite

The Brian Jonestown Massacre

Just passed
satellite
flying high
hello
keep it cool
break the rules
beg for light
you know
love flies above
while you're low
evil eye
teaches lies
beg for light
it goes
keep it cool
break the rules
know its time
to go
love flies above
while you're low
love flies above
c'mon let's go
just passed
satellite
flying high
hello
keep it cool
break the rules
pray for light
hello
love flies above
now you know
love lives above
c'mon let's go
