### The Brian Jonestown Massacre

I thought I could touch the stars  
I lie alone at night  
I don't know where you are  
My face explodes  
Teardrops into tears  
And every second I'm not with you  
Well it seems like years.

I've told you  
How I love you  
And need you  
Will kill you  
Yeah, yeah

I won't die  
But I don't feel the same  
I lie awake at night  
Hoping to see you again  
My face explodes  
Teardrops into tears  
And every moment I'm not with you  
Well it seems like years.

I love you  
I need you  
Yeah, yeah  
And I told you  
That I'd kill you  
Yeah, yeah
