

Swallowtail

The Brian Jonestown Massacre

I see it's hard to be alone in everyway
When you hear so much of I give ups
In every word they say
But we make love forever
And nothing fills that space
Not smashing in my door last night
And screaming in my face
Can't you see it's hard for me
To send you on your way
But I've heard so much of I give up
In every word you say
But we make love forever still
And I'll not fill that space
By punching all your front teeth out
And laughing in your face
