

# Charge Into The Sun

The Briggs

Can peace keep this from happening?  
Waging fear we can't forget  
A disease, his words are spreading it  
There is no need to argue  
Now just do what he says

You must learn to trust no one  
Smile as we charge into the sun  
And when it's over we can say  
I saw it on TV

The need, no there's no stopping it  
And you won't believe your eyes this time  
The last message we tried to send  
Fell into the wrong hands again  
Remember they can make up anything

You must learn to trust no one  
Smile as we charge into the sun  
And when it's over we can say  
I saw it on TV

Let the truth unfold  
We're waiting for an answer  
This silence is our hymn  
Our fists are raised and it's time  
To take back what is mine

You must learn to trust no one  
Smile as we charge into the sun  
And when it's over we can say  
I saw it on TV, yeah

You must learn to trust no one  
Smile as we charge into the sun  
And when it's over we can say  
I saw it on TV, yeah
