

Charge Into The Sun

The Briggs

Can peace keep this from happening?
Waging fear we can't forget
A disease, his words are spreading it
There is no need to argue
Now just do what he says

You must learn to trust no one
Smile as we charge into the sun
And when it's over we can say
I saw it on TV

The need, no there's no stopping it
And you won't believe your eyes this time
The last message we tried to send
Fell into the wrong hands again
Remember they can make up anything

You must learn to trust no one
Smile as we charge into the sun
And when it's over we can say
I saw it on TV

Let the truth unfold
We're waiting for an answer
This silence is our hymn
Our fists are raised and it's time
To take back what is mine

You must learn to trust no one
Smile as we charge into the sun
And when it's over we can say
I saw it on TV, yeah

You must learn to trust no one
Smile as we charge into the sun
And when it's over we can say
I saw it on TV, yeah
