

I'm ready for waking up this time  
Got the open ears and open mind  
Got my voice box ready  
But I don't know what it is I need

Ready for waking up this time  
Got the open ears and open mind  
Got my voice box ready  
But I don't know what it is I need

Decided on no regrets this time  
So give me strength and peace of mind  
As I stand ready  
Why is it I always have to fight to belong?  
Am I right or am I wrong?

You're not alone  
There's got to be a million people living just like you  
So don't complain  
I will try, but something isn't right

I'm ready for waking up this time  
The future hasn't been defined  
I've got this vision  
And I think I fit in here somewhere

I've got this thing I'd like to try  
So open up your narrow eyes  
And see what's coming  
I don't intend to stand here so polite for so long  
Am I right or am I wrong?

You're not alone  
There's got to be a million people living just like you  
So don't complain  
I will try, but something isn't right

Make a run for something you love  
Join the club and find out who you're not  
There's a place for everyone involved  
That doesn't include you  
Make a run for something you love  
Looking good until you find  
You don't have any legs to call your own

I will fight to belong  
Am I right or am I wrong?

You're not alone  
There's got to be a million people living just like you  
So don't complain  
I will try, but something isn't right
