

Say anything, say anything, just fuckin' talk
Change everything, change everything or I'll fuckin' walk
I thought I had a vision
Please say it's more than a guess
Oh God, please say yes!

Rocket make me famous
Missile take control
Oh God, guide my soul

When I feel like the world is just within my reach
They pull my digital leash!
Oh, they pull my digital leash!

'Cause this cannot be normal
We all had expectations

Save everyone, save everyone, shoot every son
Save everyone, save everyone, we're fuckin' done

When I feel like the world is just within my reach
And when I can't decide between my fantasies
They pull my digital leash!
Oh, they pull my digital leash!

And when my lonely days are done
I'm gonna find myself a gun
I'm gonna find myself some fun!

When I feel like the world is just within my reach
And when I can't decide between my fantasies
They pull my digital leash!
Oh, they pull my digital leash!
