

Action!

I had a dream on a back lot  
And saw my life like a long shot  
Of smiling faces in a picture parade  
Of all the stills from the films that you made  
That we would see in the Essoldo  
After drinking coffee at the (G.O. condo? Giocondo?)

Elstree, remember me?  
I had a part in a B movie  
I played a man from history  
Elstree, I look at me  
Now I work for the BBC  
Life is not what it used to be

I took no dives in the fight scene  
I had a stuntman keep my suit clean  
There's no technology to fake up a song  
They stop the orchestra if you get it wrong

Elstree, remember me?  
I had a part in a B movie  
I played a man from history  
Elstree, I look at me  
Now I work for the BBC  
Life is not what it used to be

Elstree

They made a field into a war zone  
I beat the enemy on my own  
All the bullets just went over my head  
There's no reality and no one dead in

Elstree, remember me?  
I had a part in a B movie  
I played a man from history

Elstree  
Elstree  
Elstree  
Elstree  
Elstree

Cut!
