

# It's Not My Fault I Don't Remember Your Name

The Bunny the Bear

My work here is (done)

My work here is (done)

My work here is (done)

All your poise is driving me insane

All your poise is driving me insane

Take my hand, I know you want to break my plans

My work here is (done)

My work here is (done)

My work here is (done)

Caught up swiftly in your bedroom

(Lately, you know I want you

Lately I think I want you)

Hoping, maybe I would find you

(Lately, you know I want you

Lately, I think I want you)

Lets forget this joy and just stick with the pain

Lets forget this joy and just stick with the pain

I'll never trust you

Take my hand, I know you want to break my plans

(All your poise is driving me insane)

Take my hand, I know you want to break my plans

(All your poise is driving me insane)

Take my hand, I know you want to break my plans

(All your poise is driving me insane)

Take my hand, I know you want to break my plans

(All your poise is driving me insane)

Take my hand, I know you want to break my plans

Take my hand, break my plans
