

# Sympathy For The Queen Of Lies

The Bunny the Bear

Your eyes, like a happy ending.  
My heart black like the very lies you speak.  
And the thought that I'll never be the same...

(Your eyes,) like a happy ending.  
(My heart) black like the very lies you speak.  
And the thought that I'll never be the same...

So give in to me, I've lost all my integrity.  
So give in to me, I've lost all my integrity. (Give in to me)  
So give in to me, I've lost all my integrity.

Forgive is another night, I try to walk away.  
Forgive is another night, I try to walk away.

And in the distance the clouds will align, forming a pattern you shouldn't combine.  
And the only thought in my head was the true understanding that we were all dead.  
Ruiner, breath free.

So give in to me, I've lost all my integrity. (So)  
So give in to me, I've lost all my integrity. (Give in to me)  
So give in to me, I've lost all my integrity.

Cut down to size, they'll discover your lies  
When you're hung from a cross. (Hung from a cross)  
And I doubt a surprise, they'll discover your lies  
When you're hung from a cross. (Lifted and so lonely)  
Doubt a surprise, they'll discover your lies  
When you're hung from a cross. (Hung from a cross)  
Open your eyes and you'll soon realize  
that you're hung from a cross.  
When did it come down to this?

(Walk away)  
(Walk away)  
(Walk away)

Falling apart, (We're falling.)  
Falling apart,  
Falling apart, . (We're falling.)  
Tied down by these sheets,  
We're drowning in our sleep.

Fast asleep, (Asleep)  
Dream and breath for me. (For me).  
Fast asleep, (Asleep)  
Dream and breath for me.
