

## Class Compromise

### The Business

Welfare state - Class Compromise  
Which stop`s things short of revolution  
assault on freedom there`s no protection  
there`s no equality in exploitation  
law and justice are hidden behind  
a veil of ignorance and corruption  
one salvation - through suicide  
no one answers to the mass destruction

History`s Glory  
another dead man`s story  
When the voices havn`t stopped  
The powers at the top  
their life is shaken, weaken and worried

Justice isn`t meant to be blind  
not deaf dumb - a mute institute  
the cracks of liberty filled with the cash  
the working man ain`t got no solution  
Goverment`s power reigns with a blow  
there dirty water stinks of pollution  
The line goes deep, deep to the wall  
there we await our execution
