

## Filling Silence

## The Butterfly Effect

Safe... Only for you

On the edge of the dark

Where no one can find you  
Breathe... extinguish the spark  
Are you hiding from something  
No self... Reflecting in scene

When I feel you lost inside me  
Darkness blinds me now that I feel you, i've  
Now that I feel you, I

Exit the empty  
Exist... where nothing was found

Where no one can find me  
I'll go... softly without a sound

Will I find you lost inside me  
Silence i'll be  
Now that I feel you, I  
Now that I feel you, I...

Drifting inside  
Closing my eyes  
Till the pain died  
Given in to you  
I've given in to you, I...

...feel you now...

And I feel you, I...

You...

I feel you... I...

Feel you, I....

(This is the bit where Clint sings REALLY high like an angel!)

Feel you.....  
Now I have gone in to you  
All that remains I know....  
Is the silence thats filling me now..  
Can you hear me..... NOW!

Empty Craving??  
Filling Silence..
