

## Room Without A View

## The Butterfly Effect

Watching and waiting  
A room without a view  
Searching through surgery  
For something lost inside you

Stand me up and push me forward

Staring back in front of me  
Where were you hiding?  
I was blind but now I see  
Where you were hiding

For so long  
Was I so wrong?  
Or another casualty?

Where were you hiding?
