

Grow Up And Be Kids

The Cab

Release the doves
Surrender love
I've paid my dues
My heart was born to bruise

So I think of a child
When my wonder was cage free
Before I lost innocence

Back then I'd live forever
And grow old
I'd keep my friends warm
When times got cold
I'd live forever
And grow old
I'd keep my friends close
We couldn't be sold
Go on, go on, go on
We'll forget all of this even exists

We'd make a stand
The exit was our great plan
Live for the second
Good times were made
We'll let you in

Before I worried about the world
I just worried about me
Back then I'd live forever
And grow old
I'd keep my friends warm
When times got cold
I'd live forever
And grow old
I'd keep my friends close
We couldn't be sold
Go on, go on, go on, go on

One day
We'll grow up and be kids, whoa
One day, one day, one day
We'll grow up and be kids
We'll forget all of this even exists

Living in a haze
The miracle lives
I'm still standing
Reminisce the cloudy days
I can think better in a hurricane, hurricane, hurricane

One day
We'll grow up and be kids

Back then I'd live forever
And grow old
I'd keep my friends warm
When times got cold

I'd live forever
And grow old
I'd keep my friends close
We couldn't be sold
Go on, go on, go on

Back then I'd live forever
And grow old
I'd keep my friends warm
When times got cold
I'd live forever
And grow old
I'd keep my friends close
We couldn't be sold
Go on, go on, go on
We'll forget all of this even exists
