

Lights

The Cab

Now it's time to leave the lights
And hope that the future is just as bright
Please think of me back home
So so close

I planted all my songs with seeds
In hopes that they would be
My escape, from all of my life
May my memory machines
Push me to succeed
I won't be gone for, for long
I'm more than just a product
I'm not a clever line you thought of
You've got to save that for someone who cares

Now it's time to leave the lights
And hope that the future is just as bright
Please think of me back home
So so close
And even though I'm so far gone
Know that I've rolled out one last song
A piece of me to hold
So so close
We are so so close

Come take a walk with me
Or slither up my sleeve
This isn't loss, this is love
Months and miles away from dreams
I'm swallowing this scene
They swapped tales, no no no
No no no no
I'm more than just a product
I'm not a clever line you thought of
You've got to save that for someone who cares

Now it's time to leave the lights
And hope that the future is just as bright
Please think of me back home
So so close
And even though I'm so far gone
Know that I've rolled out one last song
A piece of me to hold
We are so so close
We are so so close

Don't don't don't don't you wanna be
Don't don't don't don't you wanna be
Don't don't don't don't you wanna be
So so close to me
Don't don't don't don't you wanna be
Don't don't don't don't you wanna be
Don't don't don't don't you wanna be
So so close to me

Now it's time to leave the lights
And hope that the future is just as bright

Please think of me back home
So so close
And even though I'm so far gone
Know that I've rolled out one last song
A piece of me to hold
We are so so close
We are so so close
