

Moon

The Cab

It's so fake, this world of ours
More satellites than shooting stars; they're all around
Yeah, their broken hearts on the boulevard
You know world will leave you scarred and let you down

By leaving here with you, one of you will be living on the dark side
Yeah, right here, right now, we'll leave this crowded room

I'll take your body to the moon
Then I'll let you turn it around
Girl, let's show me something new
Let me watch you take it off now
Baby we don't need these lights,
'Cause you'll be seeing stars tonight
I'll take your body to the moon
Let's fly
Let's fly

Let's not complicate the night
Just look up, everything is black and white
If the universe is you and I,
Then I know everything is gonna be alright

So tell me, what do you have to lose?
Don't you let this moment pass you by
Yeah, right here, right now, we'll leave this crowded room

I'll take your body to the moon
Then I'll let you turn it around
Girl, let's show me something new
Let me watch you take it off now
Baby we don't need these lights,
'Cause you'll be seeing stars tonight
I'll take your body to the moon
Let's fly
Let's fly

By leaving here with you, one of you will be living on the dark side
Yeah, right here, right now, we'll leave this crowded room

I'll take your body to the moon
Then I'll let you turn it around
Girl, let's show me something new
Let me watch you take it off now
Baby we don't need these lights,
'Cause you'll be seeing stars tonight
I'll take your body to the moon
Let's fly
Let's fly
