

Stand Up

The Cab

Do your times like guns
I had no where too long
And this world can get so lonely
Yeah the paper and pen were my two best friends
Cause the sad songs understood me

The harmony had all my dreams
Were keeping me from sleeping
Because of something so fun
Being young and being dumb cause you're not afraid of feeling

Yeah all of my demons are kicking and screaming
But I'll never leave them behind
Yeah maybe I'm crazy but don't try to save me
Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up
Stand up
And when they got ya down, gotta make your own luck, own luck
So tell me I'm out of my mind, give me a sign
Take it one step at a time, I know it's gonna be fine
Open your eyes, shut up and give it a try
When they knock ya down, kid you gotta stand up
Stand up

Everybody go oooooooooo
Everybody go oooooooooo

Yeah your eyes like knives
I had no where too high
Yeah this world can cut you open
But all the scars they prove that I follow way through
So I always keep them showing

Sanity is suicide
And crazy on the legends
But yeah I'd rather have fun being young and being dumb
Than be saved a spot in heaven

Yeah all of my demons are kicking and screaming
But I'll never leave them behind
Yeah maybe I'm crazy but don't try to save me
Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up
Stand up
And when they got ya down, gotta make your own luck, own luck
So tell me I'm out of my mind, give me a sign
Take it one step at a time, I know it's gonna be fine
Open your eyes, shut up and give it a try
When they knock ya down, kid you gotta stand up
Stand up

Everybody go oooooooooo
Everybody go oooooooooo

All of my demons are kicking and screaming

But I'll never leave them behind
Yeah maybe I'm crazy but don't try to save me
Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up
Stand up
And when they got ya down, gotta make your own luck, own luck
So tell me I'm out of my mind, give me a sign
Take it one step at a time, I know it's gonna be fine
Open your eyes, shut up and give it a try
When they knock ya down, kid you gotta stand up
Stand up

Everybody go ooooooo
Everybody go ooooooo
Everybody go ooooooo
Everybody go ooooooo
