

# Stand Up

The Cab

Do your times like guns  
I had no where too long  
And this world can get so lonely  
Yeah the paper and pen were my two best friends  
Cause the sad songs understood me

The harmony had all my dreams  
Were keeping me from sleeping  
Because of something so fun  
Being young and being dumb cause you're not afraid of feeling

Yeah all of my demons are kicking and screaming  
But I'll never leave them behind  
Yeah maybe I'm crazy but don't try to save me  
Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up  
Stand up  
And when they got ya down, gotta make your own luck, own luck  
So tell me I'm out of my mind, give me a sign  
Take it one step at a time, I know it's gonna be fine  
Open your eyes, shut up and give it a try  
When they knock ya down, kid you gotta stand up  
Stand up

Everybody go ooooooo  
Everybody go ooooooo

Yeah your eyes like knives  
I had no where too high  
Yeah this world can cut you open  
But all the scars they prove that I follow way through  
So I always keep them showing

Sanity is suicide  
And crazy on the legends  
But yeah I'd rather have fun being young and being dumb  
Than be saved a spot in heaven

Yeah all of my demons are kicking and screaming  
But I'll never leave them behind  
Yeah maybe I'm crazy but don't try to save me  
Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up  
Stand up  
And when they got ya down, gotta make your own luck, own luck  
So tell me I'm out of my mind, give me a sign  
Take it one step at a time, I know it's gonna be fine  
Open your eyes, shut up and give it a try  
When they knock ya down, kid you gotta stand up  
Stand up

Everybody go ooooooo  
Everybody go ooooooo

All of my demons are kicking and screaming

But I'll never leave them behind  
Yeah maybe I'm crazy but don't try to save me  
Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up  
Stand up  
And when they got ya down, gotta make your own luck, own luck  
So tell me I'm out of my mind, give me a sign  
Take it one step at a time, I know it's gonna be fine  
Open your eyes, shut up and give it a try  
When they knock ya down, kid you gotta stand up  
Stand up

Everybody go ooooooo  
Everybody go ooooooo  
Everybody go ooooooo  
Everybody go ooooooo
