Take My Hand

Calm your nerves now Don't worry, just breathe Are you sure now? Don't bother packing, let's just leave Said they wanted change I hope that you remain the same To show that this is not a game Let's end this tragedy today

Now take my hand and we will run away Down to this place that I know How did this night become the enemy? It's over, it's over, it's over

Lay down with me Let me hold you, baby just breathe This is ending We will get through eventually Said they wanted change I hope that you remain the same To show that this is not a game We'll end this tragedy today

Now take my hand and we will run away Down to this place that I know How did this night become the enemy? It's over, it's over, it's over

Take my hand and we will run away Down to this place that I know And did this night become the enemy? It's over, it's over, it's over now

We won't be a part of We won't be a part of this We won't be a part of We won't be a part of this We won't be a part of We won't be a part of this We won't be a part of We won't be a part of We won't, we won't

Take my hand and we will run away Down to this place that I know How did this night become the enemy? It's over, it's over, it's over

Now take my hand and we will run away Down to this place that I know How did this night become the enemy? It's over, it's over, it's over
