

## Cloudy Sky

The Cardigans

I'd catch some stars for you  
And just for you  
I'd paint the grey sky blue  
And just for you

So don't tell me you want the rain

From a cloudy sky  
To wash away the pain  
That I've given you again  
I've always tried to find

What satisfies your mind  
But I will never know  
Where you are to go  
But I want you to know

Do you want a golden ring?  
I would buy you anything...

I'd read some poems for you  
Just for you  
I hope they won't make you blue  
Like they used to do

Don't tell me you want the rain  
Don't tell me you want the rain
