## **Cloudy Sky**

## **The Cardigans**

I'd catch some stars for you
And just for you
I'd paint the grey sky blue
And just for you

So don't tell me you want the rain

From a cloudy sky
To wash away the pain
That I've given you again
I've always tried to find

What satisfies your mind But I will never know Where you are to go But I want you to know

Do you want a golden ring?
I would buy you anything...

I'd read some poems for you
Just for you
I hope they won't make you blue
Like they used to do

Don't tell me you want the rain Don't tell me you want the rain
