Great Divide

The Cardigans

There's a monster growing in our heads raised up on the wicked things we've said a great divide between us now something we should know

There's something to remember and something to forget as long as we remember there's something to regret something we should know

There's a mountain higher than we knew it's high but such a bitter view a great divide between us now something we should know

A great divide between us now on different sides of a great divide
