```
I want to be alone for a while I want earth to breathe to me I want the waves to grow loud I want the sun to bleed down to bleed down
```

See the waves go down see the moon alone see the world unshown I raise my head and whisper

Rise and shine
rise and shine my sister
rise and shine
rise and shine my sister
rise and shine
rise and shine my sister
rise and shine my sister
rise and shine
rise and shine my sister
