

## Panorama

## The Cars

I'm going to get what's coming to me  
no surprises, no impressions  
hey, what's wrong with you tonight  
just sitting on your can can  
doing the panoram  
with nothing to comtemplate  
with nothing to search for  
with nothing to integrate  
with nothing to do  
except think about you  
with nothing to do  
except fall for blue  
I just want to be in your panorama  
I just want to be in your panorama  
I'm going to take what's coming to me  
no entanglements and no compromise  
get the picture, I'm on my knees  
looking at your hot shot  
turning down your offer  
well I'm ripping it up  
I'm looking away  
I'm pulling my flag up  
I'm miles away  
with nothing to do  
except think about you  
I just want to be in your panorama  
I just want to be in your panorama  
I'm going to find my way out of here  
no pushing the buttons  
no deals with daddy-o  
I'm going to get myself in trouble  
and I'll take my chances  
if I break your bubble
