

Strap Me In

The Cars

You took me for a ride
you beat me to the gun
and from the other side
you came undone
but when you tell me to
I want to give in
just like you want me to
oh oh I'm falling through
you better strap me in
all night long
you took me by the way
you showed me what is fun
just like a ricochet
back you come
and when you tell me to
I want to give it
just like you want me to
oh oh I'm falling through
you better strap me in
all night long
