

## Strap Me In

### The Cars

You took me for a ride  
you beat me to the gun  
and from the other side  
you came undone  
but when you tell me to  
I want to give in  
just like you want me to  
oh oh I'm falling through  
you better strap me in  
all night long  
you took me by the way  
you showed me what is fun  
just like a ricochet  
back you come  
and when you tell me to  
I want to give it  
just like you want me to  
oh oh I'm falling through  
you better strap me in  
all night long
