

## Come Out

### The Cassandra Complex

I'm gonna explode  
I'm gonna explode  
I'm standing on tiptoe  
At the edge of the rainbow

Tie you up  
Tie you up  
Pretend that it's real  
Play with me

Come out, come out baby  
Come out, come out tonight  
Come out, come out baby  
Come out, come out, come out

No matter where you are I will find you  
Your breath and your skin and your hair  
No matter where you are I will find you  
I'm coming I'm coming right there
