Come Out

The Cassandra Complex

I'm gonna explode
I'm gonna explode
I'm standing on tiptoe
At the edge of the rainbow

Tie you up
Tie you up
Pretend that it's real
Play with me

Come out, come out baby
Come out, come out tonight
Come out, come out baby
Come out, come out, come out

No matter where you are I will find you
Your breath and your skin and your hair
No matter where you are I will find you
I'm coming I'm coming right there
