

# GROUND

## The Cassandra Complex

We're going up, up into space  
Among the stars, into the holes  
Into the sea, into the dark  
We're drowning now, space is cold  
We're swimming in the sea, swimming with the Lord  
He's with us now, he's with us here  
Swimming in the sea, swimming with the Lord  
He's with us now, here comes the word

We fall and fall, fall and fall  
Fall and fall, and fall, and fall, and fall

We pull the stuff, up from the ground  
Our enemy is gravity, we can't go down  
We freeze the earth, up in the air  
We can't go on, we can't go on

We just fall, and fall and fall  
And fall and fall, and fall, and fall, and fall

Bite the hand, the hand that feeds  
Raise your head, challenge the sun  
Bite the hand, the hand that bleeds  
Kill the desire, be with the one

We fall and fall, fall and fall  
Fall and fall, and fall, and fall, and fall

We're going up, up into space  
We're going up, among the stars  
Into the dark, into the sea  
We're drowning now, we're drowning now

We fall and fall, fall and fall  
Fall and fall, and fall, and fall, and fall
