

I Want You

The Cassandra Complex

Why do you look at me that way?
Why don't you come over here
We're young, free, and stupid
We can be anything

I want you

I'll come over to your house
And play games with you
We'll take off our clothes
We'll be together

I want you

We'll do what we want
We'll do anything we want
I won't take no for an answer
We can be anything

I want you

Come on!

I want you
