Nightfall (Over EC)

The Cassandra Complex

When I hear you calling I won't answer When I hear you calling I won't be there I'll be flying over some other Europe Filled with darkness, filled with despair

Night falls over Western Europe Night falls over Western Europe

Jihad is coming, jihad is coming The Third World War is coming home

Night falls over Western Europe Night falls over Western Europe

The hills are alive with the sound of gunfire Kill them all, God will know his own And night falls over Western Europe Night falls, and we're alone

Night falls over Western Europe Night falls ...
