The Cassandra Complex

All dressed up and no address to go to
Strawberry lips, sweet as honey
Let's go out, let's go to dinner
Some peace of mind, some piece of money

Pick me up
Put me down
Pick me up

Lemon hair and the groove of Gamelan
Video, video, smile at me
I'm laced up tight, I'm bursting my bonds
Social monkey on a se**** tree

Pick me up
Put me down
Pick me up

I'm bottling up, I'm bottling out
There's a note in there and it's all about love
There's a time and a place, after midnight
A time and a place, and it's waiting above

Pick me up
Put me down
Pick me up

We're talking sex, we're talking drugs
We're talking life, we're talking crud

Pick me up
Put me down
Pick me up
