

## When I Fall In Love

### The Cassandra Complex

When I fall in love...

When I fall in love  
It will be forever  
Or at least for a day  
If you will only say  
That's enough for you  
To reach across the wires, hold my hand  
And understand  
That's enough for you

That's enough for me  
That's enough for me  
That's enough for me  
That's enough for me

I've always been romantic  
Though my friends all laugh  
And if you ask me for my autograph  
That's enough for me  
So won't you give me a chance  
Just one chance  
That's enough for me  
That's enough for me
