

When Love Comes

The Cassandra Complex

I've been lonely since I was a child
I always needed someone, someone to love
but love's so hard to find in a small town
You sit and wait, and hope and pray
For love to come around
And then you came
You walked into town and kissed me
And I thought that I had died and gone to heaven

When love comes, when love comes
When love comes to town

When love comes to town it seems to last forever
But it can't last, you went away
But I still see you everywhere, I still see you every day
When love comes, when love comes to town

When love comes

Why can't it be like it was before
We had no money, but we had fun
Lying awake all night long
Listen to the radio, it's playing our song

When love comes
