

Apocalypse Today

The Casualties

Look at mankind our planet poisoned and diseased
past generations raped it with their greed
yet we still destroy all the oceans and pollute the
sky's
what's left for our future, nothing but extinction
drink a glass of water, your drinking acid rain
take a deep breath, polluting in your brain
they fucked up everything, the planet doesn't lie
they fucked up everything, leaving us to die!

Look at our planet, poisoned and diseased
past generations raped it with their greed
they poisoned all the oceans, pollute all the sky's
drink a glass of water, your drinking acid rain
take a deep breath, pollution in your brain
you try to eat healthy, but chemicals don't lie
endangered species dieing one by one
complete global warming, pollution blocks the sun

Apocalypse today (4x)

on our way to hell
no more food to eat, our planet can't survive
we need a real solution to stop this global mess
our planet's getting sicker, it's dieing from the
stress
each and every country must give a helping hand

Apocalypse to (4x)

we're on our way
THEY FUCKED UP EVERYTHING
the planet doesn't lie
and we're supposed to die
they filled us with their lies
but i don't wanna lie
i am sick of their lies
we're all gonna die

Apocalypse today (4x)

ON OUR WAY TO HELL!
