

It's Coming Down On You

The Casualties

Ohh... It's coming down on you
Ohh... Your friends are gonna help you through

You lost your job, you got no hope
got thoughts of swinging from a rope
Your love left you alone for good
'cause nothing is going like it should

SO...so where you going when you're stuck?
YOU...you need some friends to pick you up?
SO...so where you going when you're down?
WE...we're gonna lift you off the ground!

Ohh... It's coming down on you
Ohh... Your friends are gonna help you through

You've hit the bottom now you're scared
Worried, alone, there's no one there
Down on your luck and in a rut
Look on your friends and don't give up

SO...so where you going when you're stuck?
YOU...you need some friends to pick you up?
SO...so where you going when you're down?
WE...we're gonna lift you off the ground!

Ohh... It's coming down on you
Ohh... Your friends are gonna help you through
