

Just Another Lie

The Casualties

You put your army on the street
But I can't see the peace they keep
They beat you up and gun you down
The mayor wears the golden crown

Call it Justice, Call it law
It's just another lie

They prey on the poor, they prey on the weak
These vultures that patrol the streets
They'll take a bribe and they won't think
They'll shoot you down won't even blink

Don't go outside the cops are there
There's law and justice everywhere
Look out for justice dressed in blue
'Cause next time they'll be coming for you

Try to fight 'cause they're corrupt
You speak your mind, they'll lock you up
How long can this shit go on
They'll kill us all before too long
