

# Leaders of Today

## The Casualties

How are you doing - brainwashed, ignorant, and deceived  
Beautiful words I will tell you on TV  
I will lie to the poor and give to the rich  
Smells like money in the land of the free

We are the leaders - leaders of today  
The ones who steal your money 2x  
And the land you're living on

Inflation and corruption, all will come to an end  
Put me in power cause I'm savior man  
I will privatize the culture that you have  
By cutting off your benefits and all your social help

We are the leaders - leaders of today  
The ones who steal your money 2x  
And the land you're living on

I represent the oil and wealthy men  
Don't care 'bout you cause you're just a lamb  
If you don't make a million, better say you're prayers  
Businessmen and bankers will multiply their wealth

We are the leaders - leaders of today  
The ones who steal your money 2x  
And the land you're living on

Here's a lesson you should have learned  
I control your schools to keep you unaware  
This edemocracy is ruled by the man  
The only change is the makeup that we wear

We are the leaders - leaders of today  
The ones who steal your money 2x  
And the land you're living on

-I have the power, I will make you forget  
-The days of McCarthy and the red fucking scare  
-How about nixon and the watergate scam,  
-Now it's my turn to not fucking care

We are the leaders - leaders of today  
The ones who steal your money 2x  
And the land you're living on
