

# Ruining It All

## The Casualties

I hated at school  
All the jocks and Barbie dolls  
So I joined the punk scene To get away from it all  
It seems that nowadays  
There's no escape from it all  
Staring deadly eyes  
There's tension at punk shows

You prey on the weak  
You prey on the small  
Fighting at the shows  
You ruin it all

Heathers in the scene  
This movie we live in  
Touch somebody in the pit  
A fight breaks out  
Don't like what you wear  
They kick you in the face  
The soap opera scene  
Was never made for me

You prey on the weak  
You prey on the small  
Fighting at the shows  
You ruin it all
