

Eagle

The Cat Empire

Hold your breath and watch the eagle go
My darling lives forever and ever amen

I want to do something right
I want to get something started
Hyenas come at night
I light my candelabra
You said that the Dalai Lama said

Euphoria clean and dry
Euphoria clear as vodka
It's like some spitting cobra
That follows me wherever I go
You said that the Dalai Lama said

Hold your breath and watch the eagle go
My darling lives forever and ever amen

We stay in bed sometimes
And watch that Kurosawa
Until the light magnesia
Makes it way to my window
I love you and I'll never let you go

Hyenas come at night
I walk through darkened and
No matter what the season
Somehow I never feel the cold
I love you and I'll never let you go

Hold your breath and watch the eagle go
My darling lives forever and ever amen...
