

Wolves

The Cat Empire

Well the ghost at my side
Sings staying alive
And it come here tonight
To get cornered and tied

We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves

Slap moon with the knife
Step into the night
Got a look in your eye
You could light up the sky

We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves

Maybe one day we'll all stand still
And watch the sun fall down over that hill
Where no light can ever return
Baby, 'til then I'll watch the world turn

All the drums in a line
They sparkle and shine
Like cut diamond time
Like gunshots and science

We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves

Maybe one day we'll all stand still
And watch the sun fall down over that hill
Where no light can ever return
Baby, 'til then I'll watch the world turn

Well the ghost at my side
Sings staying alive
And it come here tonight
To get cornered and tied

We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves
We're gonna run like wolves

Maybe one day we'll all stand still
And watch the sun fall down over that hill
Where no light can ever return
Baby, 'til then I'll watch the world turn
Watch the world turn
Watch the world turn
Watch the world turn

We're gonna run like wolves
We're gonna run like wolves
