

You Are My Song

The Cat Empire

Love don't care about the road
Under acacia, over snow
Another day, another lunar valley
Find another way
Find another way
Find another way to call me
Find another way
Find another way
Find another way to call me

I can sail upon the flow
I will never reach for more
Another day, another mist arising
Find another way
Find another way
Find another way to call me
Find another way
Find another way
Find another way to call me

You are my...
You are my...
You are my song

Now how I live and what I know
It's just a whisper, just a ghost
But in my chest, I know a bird is rising
Find another way
Find another way
Find another way to call me
Find another way
Find another way
Find another way to call me

Cause you are my...
You are my...
You are my song
