

All You

The Cataracs

I see you looking but you trying to act cool, right
You don't even care what I do right,
Prolly wanna pick, prolly want 2 right
Pretty girls get ugly when the mood right
Lil moon light go ahead and let it go
I don't mean to come across too sexual, oh, oh
But that ass is epic though
Titanic, Saga, volcanic, hot lava, you burning up, I
can serve it up
Like Luke I am your father
Only if you wanna, take a dip in each other waters
Take this bedroom and turn it into a sauna

She's sending me drinks, I fed her one back
She said hey boy, you're drinking too fast
And we can take it slow, you'll never be alone
She's telling me its all you tonight lift me up,
all you tonight fill my cup
all you tonight
Get me though, all you tonight
All you

If I want her, Imma get her, send that waitress over,
quit that bullshit, girl
bend that ass over
Mr. round of applause, I can do it with no hands
I go hard in the paint, she ain't even gotta chance
Dont go by yourself, bring a couple friends
I got shows all in japan,ask your friends I'm the man,
ask your man
Drop it, wipe me down down, make that ass clap, clap
Make that ass clap, clap
Waka Flacka Waka Flacka

She's sending me drinks, i fed her one back
She said hey boy, you're drinking too fast
And we can take it slow, you'll never be alone
She's telling me its all you tonight lift me up,
all you tonight
Fill my cup, all you tonight
Get me through, all you tonight
All you
All you tonight, lift me up
All you tonight
Fill my cup, all you tonight
Get me though, all you tonight
All you

If I want her, I'ma get her, send that waitress over,
quit that bullshit girl
bend that ass over
bend that ass over
bend that bend that ass over
Quit that bullshit girl bend that ass over

All you tonight lift me up, all you tonight
Fill my cup, all you tonight

Get me through, all you tonight
All you
All you tonight, lift me up, All you tonight
Fill my cup, all you tonight
Get me through, all you tonight
All you.
