

## When Have I Been Wrong

The Cats

I've searched the places, I've searched them all  
Searched among the faces, searched along the road  
Where am I to find you?  
Where am I to go?  
Never understanding why you run out on me  
Please tell me, where have I been wrong?

I walked the highways, I walked them all  
Counting all the long days, ever since you've gone  
Where am I to find you?  
Where am I to go?  
Never understanding why you walked out on me  
Please tell me, where have I been wrong?

Where have I been wrong?  
Where have I been wrong?  
Am I to blame for loving you?  
Where have I been wrong?  
I can't go on  
I can't maintain with someone new

I don't feel the cold rain, I don't feel the wind  
Walking 'round in circles, never reaching the end  
Where am I to find you?  
Where am I to go?  
Never understanding why you walked out on me  
Please tell me, where have I been wrong?

Where have I been wrong?  
Where have I been wrong?  
Am I to blame for loving you?  
Where have I been wrong?  
I can't go on  
I can't maintain with someone new
