## **Setting Fires**

## **The Chainsmokers**

Down to my last match fire I'll touch just to feel Why's it easier to burn than it is to heal?

Out in the cold you have been I've begged you to come back in But I can't do this again

I can't keep you from harm But I'm set on fire to keep you warm I can't go on and on Setting fires to keep you warm I can't keep you from harm But I'm set on fire to keep you warm I can't go on and on Setting fires to keep you warm

I can't I can't go on and on Setting fires to keep you warm

I've been looking for answers I don't want to hear Chest to chest with you I'm staring into a mirror

Out in the cold you have been I've begged you to come back in But I can't do this again

I can't keep you from harm But I'm set on fire to keep you warm I can't go on and on Setting fires to keep you warm I can't keep you from harm But I'm set on fire to keep you warm I can't go on and on Setting fires to keep you warm

I can't I can't go on and on Setting fires to keep you warm

What would I do? What I wouldn't do to save you What would I do? What I wouldn't do to save you

I can't keep you from harm But I'm set on fire to keep you warm I can't go on and on Setting fires to keep you warm I can't keep you from harm But I'm set on fire to keep you warm I can't go on and on Setting fires to keep you warm

I can't I can't I can't go on and on Setting fires to keep you warm I can't I can't go on and on Setting fires to keep you warm
