

# You're Not Very Well

The Charlatans (UK)

There's that house where I used to live  
Here comes that man, Christ, he gives me a headache  
I don't like all these sharks in the city  
They don't do much for me anyway

You're not very well are you?

There's that car that I used to swerve  
This town traffic is knocking me over  
You never knew so you never ask  
There's more to me and I'll show it if you, you say

You're not very well are you?

One step forward into mine  
Faking pictures and opening doorways  
There's only one I insist upon  
And you take two 'cause it's easy for you

You're not very well are you?

You know where I'm coming from  
So won't you get me there?  
You're so ashamed, you're so far away

Intervene and you privatise  
Health is health and I don't know about it  
So why don't you leave us lot alone  
you're so selfish, you'll do it on your own

You're not very well are you?  
You're not very well are you, are you?
