

Circle Game

The Cheetah Girls

My friends ask me if I'm doing ok
But it depends on if you've called today
So that means I'm not doing so good
And I'd forget you baby if I could

My friends ask me how I am tonight
And if I've heard from you I'll be doing a height
And thats the trouble with the situation
We go up and down, in and out of love, because

It's a circle game (it's a circle game)
I don't wanna play (I don't want to play)
I think I'm over it, then I hear you name,
I get lost in the sound and I can't find my way out

It's a circle game (it's a circle game)
Nothing's gonna change (nothing's gonna change)
Better half of me is telling me to lose your name,
And I get lost in the sound and I can't find my way out

Everyday is different but it feels the same
My moods goes up and down with every move you make
If I could I'd get myself off this ride, and we'd be on the same
Page at the same time

I want off of this merry-go-round
It gets hard to breathe
When your not here with me
And an hour can feel like eternity
So baby
What we keep going round and round and round we go
Where we stop we never know
Round and round and round we go
Where we stop we never know
Round and round and round we go
Where we stop we never know
Round and round and round we go
Where we stop we never know
Round and round and round we go
It's a circle game
